

Chiquita is sweet little dog who became homeless when her owners fell upon hard times. Now she's at Homeward Pet looking for a fresh start.

At under two years old, she has many years of love to offer. Little Chiquita weighs just 14 pounds, so she will be perfect for someone who is looking for a smaller dog.

Although small, Chiquita is very active. She is seeking someone who can provide her with ample daily exercise and attention.

Always on the go, this spirited girl loves to stay busy. Naturally intelligent, Chiquita would be a fine candidate for future obedience classes.

Eager to please and ready to impress, Chiquita would be ideal for an owner who is willing to provide structure and guidance for their pet.

Chiquita is a very social dog who is friendly with both dogs and cats.

She'd fit in equally well as the only pet, or as a new addition to a multi pet household.

She finds smaller children somewhat intimidating, so she is best suited for a home with adults and respectful children over the age of 12 years.

She may need some house training work in her new home, but she is eager to get started.

Chiquita truly is a little gem and she'll be a great dog for the right person. Come to Homeward Pet to see if you're the one.
